SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Normal Operations	Normal Operations	Normal Operations	Normal Operations

Cal OES INLAND REGION

- Nothing significant to report.

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

Severe Weather, Town of Mammoth Lakes, Mono County

Snow accumulations have presented life safety issues, particularly at the hospital.

- All Cal Fire and California Conservation Corps (CCC) Crews are on scene.

Proclamation

- The Town of Mammoth Lakes submitted a Ratification of their Proclamation. They are now requesting CDAA and SBA Declaration, due to businesses affected by snow and travel related difficulties.
- The Town of Mammoth Lakes issued an Emergency Proclamation due to the accumulation of snow over short period of time and continued severe weather warnings, causing an emergency situation at the local hospital. The town is requesting state assistance with snow clearance.

Shelters

- Santa Barbara County activated their winter warming shelters.

Missions

- See Cal OES Mission Tasking slide.

FIRE ACTIVITY

Cal OES Fire Preparedness Levels

National	Northern California	Southern California

- None reported

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- Mountain and foothill snow is expected through the weekend.
- A chance of thunderstorms north valley today.
- Heavy snow possible late Saturday through late Sunday.
- Gusty winds on Saturday night and Sunday.
- A cold storm system will impact the region this weekend.
 - Snow-levels are forecast to fall to 1,000-2,000 feet by Sunday.
 - Hazardous travel conditions will be possible across the mountains due to snow.
 - Small hail may also occur along the coast resulting in dangerous driving conditions.

SOUTHERN CALIFORNIA

- A cold front approaching the Central Coast has begun to spread rain across the area this evening. Rain and mountain snow will continue overnight through Saturday morning.
- There will be brief clearing Saturday afternoon before another storm system arrives Sunday. Dry conditions return early next week but temperatures will remain cool.
- Potential snow/ice impacts on Interstate 5 at the Grapevine as well as foothills of Antelope Valley
 - Accumulating snows of an inch or two could affect road conditions heavily as snow levels will drop between 2500 to 3000 feet.
 - Jet stream will allow cold air to dive out of Canada, which will cause temperatures to be as cold as earlier in the week.
- More significant precipitation is possible the latter half of next week with a large spread in the details.

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

WEATHER KEY POINTS

02/09/19 - 02/15/19

Saturday-Sunday

- Several cold storm systems will move through the state
 - Valley rain and mountain snow with snow levels down to 1500 feet
 - Heavy snow along with gusty winds creating blowing snow over the Sierra and mountains of northern CA will significantly impact travel. Travel will also be impacted over the mountains of far southern CA due to snow
 - Gusty winds over many lower elevation areas will impact travel

Monday-Tuesday

- Coastal rain and low elevation snow down to 1500 feet across far northern CA. Travel will be impacted due to the snow.

Wednesday

- Potential for heavy rain and mountain snow across the state. Confidence is low on precipitation amounts, location and impacts.

Thursday

- Dry conditions across much of the state with no significant impacts

Friday

- Potential for another round of heavy rain and mountain snow across the state. Confidence is low on precipitation amounts, location and impacts.
